Bamboo is reasonably eco-friendly and is very durable. And of course hemp is mother earth's real blessing to man being such an amazing product with so many uses (and no we are not talking about ingestion lol). These t-shirts should have a long life if cared for as per the instructions on them.

These T-shirts have been supplied & printed by [GROOVEN BYRON BAY AUSTRALIA](http://grooven.net/modules/osC/)  
(visit <http://grooven.net/modules/osC/> for details)

Pictures are approximate but colours may change slightly to real colours. The DVD & CD in the picture are not included & are there just for size and colour comparison.

We have ONE ONLY of each in stock! Reduced to just above cost price cos we need to get some funding happening to assist with the enormous cost of this film. So if you buy now, you know you have assisted the bigger picture of care for this divine planet and our treasured yet disappearing indigenous community.
